

Title

Can the introduction of rapid and automatic Ankle Brachial Pressure and Pulse Volume measuring device into General Practice identify the presence or absence of Peripheral Arterial Disease in cardiovascular risk groups?

Acronym

Primary care screening for PAD in at risk groups

Principal/Lead Investigator

Dr Simon Dobson

Dr Tony Downes

Dr Jane Lewis

Dr Iain Reid

Dr Philip White

Dr Rachel Wright

Participating Sites

Clarence Medical Centre

Connah's Quay Clinic

Felinheli & Porthaethwy Surgery

Gardden Road Surgery

Pen-y-Bont Surgery

St Mark's Dee View Surgery

Study Summary

The objective of this study is to establish whether the introduction of rapid and automatic Ankle Brachial Pressure Index (ABPI)/Pulse Volume Reading (PVR) measuring device into General Practice can identify the presence/absence of Peripheral Arterial Disease (PAD) in those with hypertension and/or diabetes mellitus.

UKCTG Number

18116
